To Whom It May Concern:

**Re Nathan Révoal & Tanya Colasurdo of Barclay Street**

Intermap Technologies Corporation has had the pleasure of working with both individuals on our latest deal. Nathan and Tanya are a partnership that shouts out TEAM from the moment you meet you them. Our company, like many, in these economic times was looking for a good deal. What Nathan and Tanya delivered was a fantastic deal.

Basically, they delivered to us:

1. Aggressive negotiating skills,
2. Doing what they said they were going to do (and beyond), and
3. They were with us for the long haul, even when no deal was immediate.

It has been a pleasure knowing them and finally working a deal with them. Throughout the process they were professional, yet friendly and approachable. They listened and never gave up on us. Nathan and Tanya know how to give the tenant what they need and want. We are looking forward to our new home.

Yours truly,
