Dan Harmsen  
200, 407 8 Avenue SW  
Calgary, Alberta  
T2P 1E5

Dear Dan,

I wanted to tell you how valuable you're services have been to Print Audit in our last two office moves.

You have always worked diligently and persistently to find us space that not only fit our budget but also met our needs. You really understood how important it was to us to make sure that we were able to have Mojo, the dog, in the office and be centrally located in the city. You even managed to address all of the other crazy things we asked for which I do understand was a tall order.

I really appreciate that you have been great at looking after our interests. You have always made sure that we were aware of any issues relating to any space that you showed us so that we could make an informed decision and not get involved in something that might have a negative impact on Print Audit.

I also want to let you know that your guidance and advice was very much appreciated. I relied on you to advise me in matters that I am not familiar with and you never steered me in the wrong direction.

We are very happy in this new space. Thank you so much for helping us find it.

Please feel free to share this letter as a reference.

Sincerely,

Lynn Strocen  
Office Manager  
Print Audit.
